## ANGELINI WAS SEEN TO ENTER S. F. BAR

Countryman Declares That the Slayer of John Duca is at Large in San Francisco

### NOTIFIED THE OFFICERS

Fugitive Vanished From Sight After Giroti Caught a Brief Glimpse of Him

While Guglielmo Giroti, an Italian resident near Grand Canyon park was standing at the corner of Kearny and Broadway streets, in San Francisco on Friday afternoon, he says he saw Peter Angelini who shot and killed John Duca in this city on the night of November 30th walk hurriedly into a saloon. He followed but on entering the bar he could find no trace of the man.

Giroti then walked to the city hall where he notified the police with the result that two plainclothes men were stationed about the place. But Angelini never showed up again either to come out of the saloon or again re-enter it.

Giroti on his return to this city notified his brother-in-law, Pietro Gentila, who conducts the boarding house at which the shooting took place.

The description which Giroti gives of the murderer follows:

Had a navy blue suit, brown fedora hat, tan shoes and was smooth shaven.

### THREE BALLOTS IN ELECTION

TUCSON, Arizona, Dec. 14.—Three ballots are being used in today's city election, one bearing the names of candidates for office, one for the franchise and one for the bond issue. Only property owners will be given the bond ballots, as only they can lawfully vote on the question.

### FINDS WORK FOR DESTITUTE

As a result of the activities of the Social Service Bureau in behalf of the family made destitute by the sickness and lack of employment two positions have been offered to the head of the family.

## JOHNSON'S PAST WILL BE PROBED BY TAYLOR

Prosecuting Attorney Declares He Has Two Other Serious Charges Against Youth

### ALLEGES BOY IS A SATYR

Will Introduce Evidence, He Says, to Prove That Kenneth Johnson Has a Prior Record

MARTINEZ, Dec. 14.—The efforts of Kenneth Johnson, convicted of felony, to obtain leniency from the law will conjure visions in material form of other little girl victims to confound his plea. So declares Assistant Prosecuting Attorney E. B. Taylor in answer to the request of Johnson's attorneys for a new trial upon claims of newly discovered evidence which they urged with such good effect that Superior Judge W. M. Conley continued the time of sentence until December 19.

The veteran jurist however declared that he wanted to hear from the prosecution as well as from the pleaders for the defendant.

Attorney Taylor declares he has two little victims of Johnson's whom he will bring into court to tell of their ravishment by the alleged satyr found guilty of rape on the Little Fox girl.

## MANY FRIENDS AT FUNERAL OF LATE F. SNEE

The funeral services over the remains of Frank Snee who died recently at Oleum was held this morning at 10 o'clock from Our Lady of Mercy Church. There was a large attendance of friends of the deceased at the place of worship to pay their last tribute of respect to his memory. Interment was made in St. Joseph's cemetery at San Pablo.

## W. C. T. U. FORCES BAND TOGETHER FOR HELPING GIRL OUTCASTS HERE

As the Red Light Abatement law goes into effect at midnight Friday night of this week which means that several hundred girls will be turned adrift in the streets, the W. C. T. U. forces of this city have banded together for the event and appointed Mrs. G. Wallin, residing at 684 Fifteenth street, as superintendent of the rescue work.

Mrs. Wallin stated to the Record-Herald today that she would be ever at the services of those calling to see her.

This afternoon a committee composed of Mrs. Agatha Hooper, Mrs. G. Wallin and Mrs. Clara Wilson waited on Chief of Police Walker from whom they secured a list of the names of the girls confined at the present time in houses of ill repute in this city.

An immediate effort will be made by the committee to get into communication with the girls and start the ball rolling for the rescue work as soon as possible.

Mrs. Wallin promises that for all who will apply to her in an effort to lead a better life that good homes and employment will be found which will mean a great deal for the hundreds of outcasts on whom the curtain has been rung down for the final act.

Mrs. Wallin further stated that everything was being done by the owners of the many houses in this city to prevent the rescue work from being started but with the assistance of Chief of Police Walker it is expected that the opposing forces will be shattered and the girls once more given firm footing on the straight and narrow highway of life.

## BROKEN HIP ILLUSTRATE RESULT OF WRECK OF HANALEI

Employee of Street Department Removed to County Hospital For Better Treatment

Lacking the necessary money to secure medical treatment and suffering from a broken hip which he sustained on Thursday morning of last week, Albert Sage, residing at the Stearns House, 235 Fifteenth street, and employed as a street sweeper by the city, was removed to the county hospital in Martinez today.

According to Mrs. Stearns, proprietor of the rooming house, Sage stated that he was in the act of crossing Fourteenth street, near Macdonald avenue, when he slipped on the wet pavement.

The fall would not have been so serious had it not been for the fact that his right hip struck the curbing as he fell.

Sea Disaster in Which Fifteen Souls Perished to Be Presented by Picture House

The first pictures to be shown at any moving picture show-house on the Pacific coast of the gruesome wreck of the "Steamer Hanalei" on Duxbury Reef in which fifteen passengers met their fate will be displayed at the Richmond theater on December 18.

Immediately after word was received in San Francisco as to the steamer's plight three moving picture men rushed to the scene near the Point Reyes light house and while the coaster's back was slowly breaking on the jagged rocks they reeled off several hundred feet of film.

Scenes showing the dead clinging to the wreckage and washed up on the beach were also taken as well as of the surviving passengers.

## WORKMAN AT QUARRY IS RESCUED BY COMPANIONS

Tumbled Head-First Into Rock Crusher — Sustains Fracture of the Skull

### DR. ABBOTT TREPHINES

Patient Will Recover From Accident is Belief of the Attending Physician

Gus Pete, an Italian quarryman employed at the San Pablo quarry, lies at the Craven hospital with a fractured skull as the result of having tumbled head first into one of the rock hoppers at a late hour yesterday afternoon.

Pete was in the act of tamping the rock into the hopper where it is pulverized when he lost his balance, striking his head on the rapidly rotating rollers.

Fellow employees hearing his cries for help rushed to his assistance and managed to pull him from the land mole and rush him to the Abbott emergency hospital where Dr. U. S. Abbott trephined his skull.

## TOM JOY STILL AMONG THE LIVING

Report That Popular Clubman Had Died in Nevada is Branded as a Canard

Considerable anxiety was caused amongst the members of Richmond Lodge of Elks on Saturday evening when a report was received from Goldfield, Nevada, stating that Tom Joy, former Santa Fe employee and club man of this city, had passed away from an attack of pneumonia. Secretary James P. Arnold of the lodge immediately telegraphed for further information which he received today stating that Joy had just finished a long siege in a hospital at that place and was recovering rapidly.

It is thought that the first notice of Joy's death was sent out by some joker who did not realize the consequences.

## VACCINATION FORCED UPON PASSENGERS OF OVERLAND

Conductor of Train Taken Ill With Attack of Smallpox on Trip From the North

### STEIGE MAN AMONG THEM

Members of Fair Sex Protest Against Scars on Arms That Will Mar Their Chances

Had J. H. Pickett, a resident of Stege, taken advantage of the stop made in this city yesterday by the "Oregon Express" instead of going on into Oakland he would not have had to submit to the vaccine serum of Dr. J. H. Gillean of Oakland.

Pickett was among the fifty-two passengers vaccinated by Dr. Gillean owing to the fact that a conductor on the train between Portland and Eugene had been taken suddenly ill with smallpox.

Nothing was said of the incident until the passengers were about to file out of the coaches at the Oakland mole when the vanguard were met by a cordon of bluecoated officers and informed to resume their seats while the health officer and his deputies worked with the greatest rapidity.

Among the passengers were many prominent society matrons who objected to being vaccinated on the arm, as they stated it would disfigure them for the coming holiday dancings and tea parties. But upon advice given by Dr. Gillean they finally submitted to the ordeal.

"Many passengers alighted at the Richmond and Berkeley stations," stated Pickett, "and had I known the surprise which was to be sprung at the Oakland mole I would have taken advantage of the occasion, as it's no joke to carry a vaccine mark on your arm for several days."

One woman among the party fought with the authorities when they attempted to vaccinate her and stated that she would rather die than be scratched with the virus. Pickett was returning from a two weeks' trip spent in Oregon and Washington on business matters.

## AKASKAN HUNTER IS ACCUSED OF BATTERY CHARGE

Frederick K. Burnham Accused of Pugnaistic Proclivities by Martinez Man

MARTINEZ, Dec. 14.—Charging that on November 30th, Frederick Burnham assaulted him without a cause and inflicted painful injuries, W. J. Johnson, the local garage man on Saturday morning swore to a complaint charging the well known big game hunter with battery, at the same time filing suit through his attorneys Rodgers and Bray for \$158.10 alleged to be due on a garage bill.

The alleged battery occurred in Johnson's garage on November 30 when Burnham is said to have demanded an itemized bill, which Johnson says he had already given. Words are said to have been passed the result of which was Burnham striking Johnson.

The warrant was placed in the hands of Constable C. H. Palmer for service. Burnham who has been duck hunting at Los Banos plans to leave in a few days for the east to spend the holidays.

## ADOLPH WINTERS ESCAPES HARM IN CRASH

Auto Bumps Into Telephone Pole — Ford Precluded From Rambling Right Along

Adolph Winters is possessed with the same luck which favored the German cruiser Dresden in escaping from her English opponents when he yesterday afternoon crashed head-on into a telephone pole at the junction of Macdonald and San Pablo avenues and while the machine was badly smashed he escaped without a scratch.

The machine was towed to the Richmond garage where it was found necessary to replace several sections of the steering apparatus together with several patches to the radiator.

This is the "steenth" narrow escape from death which Winters has experienced within the past few months.

### THE BELGIANS WON'T COME

The idea of bringing a colony of Belgians to California for the purpose of turning over to them a lot of uncultivated lands of the state and which has been advanced by some of the silk-stocking element in San Francisco and elsewhere, has heretofore been characterized by the Record-Herald as thoroughly impractical. We believe that if the landowners of California have anything worth while to give out they should first consider our own people; if they have charity to dispense it is up to them to take care of and provide for our own poor first and then if they have anything left it will be time enough for them to consider the poor and distressed of Europe.

After being in San Francisco five days, Alfred Mollitor, a Brussels banker, says Belgian farmers will not leave their home farms and journey to this far off state. In giving his reasons for this conclusion, he says:

"I find in San Francisco and in the United States a lot of people accosting me in the streets, asking me for money and work, and I think that if the colonization committee that is offering land and work to the Belgians would find something for their own unemployed to do here, they would be doing more good. If they have farm land and work they should give to their own people first."

In commenting on this subject, in connection with Mr. Mollitor's visit to California and his ideas concerning the practicability of bringing the Belgians to California, the San Francisco Star says:

"Mr. Mollitor's opinion is the same as that of another Belgian now in San Francisco. Charles P'erd of Brussels does not think irrigation lands will appeal to the Belgians, and says that while land is cheaper here than in Belgium, the cost of living here is so much higher than California land is, for that reason is dearer.

"Certainly there can be no hope for an influx of Belgians if they learn of the conditions of unemployment in this state, and learn the reasons for it. Probably nothing would be more astonishing to Belgian and other European farmers than to learn that last winter there were armies of unemployed in California, while more than half of the agricultural land in the state is held out of use by speculators. Naturally, they would ask why such a condition is permitted, and why the 'boosters' who are trying to bring Belgians to California, don't make any effort to bring together the landless men and the manless lands, and both of our own state.

An Oakland business man who has just returned home from an extended business trip throughout the Eastern states brings back the pleasing intelligence that business is taking on a much brighter tone than it has for a long time and that indications are that the year 1915 will be a most prosperous one all over the nation. He declares that money is plenty and crop prospects were never brighter in the history of the county. Numerous factories which have either been running on short-time or closed altogether have been opened to their full capacity and in many instances they are working double shifts. The same report is coming to us now from all parts of the country.

And now it is claimed that the song "Tiptery," which has been adopted by the British soldiers as their marching and war song, was not written in England or in Ireland, as a great many seem to suppose. It was the product of Harry Williams, a song-writer of New York, who was also the author of "I'm Afraid to Go Home in the Dark." This is another breach of neutrality on the part of the Americans, we presume.

The people of Bakersfield are going to have a "bury the hammer" celebration on New Year's Day. The idea is a good one and it might not be at all out of the way for some of the people of Richmond to start this sort of a movement. There are a lot of knockers here that should be reformed or else turned over to the foolkiller.

The editor of one of our exchanges writes a column editorial on how the tourist must coach himself up in order to get along while traveling through Europe. The subject has not the slightest interest for us at this time. We are firm believers in the "seeing America first movement." Anyway we are not very good at dodging shrapnel and dumdum bullets.

The Los Angeles Times under the caption, "The Passing of Democracy," declares that the reduction of the Democratic majority in the House and the utter annihilation of the Progressive party "afford reasonable assurance that two years hence Democratic ascendancy in the White House and in both branches of Congress will be remitted to its proper place among the has-beens." The political structures that some partisan organs can erect upon a foundation of sand are marvelous. We agree that Democracy is "passing"—passing into permanent control of this nation's affairs.—Stockton Mail.

While the rainy weather makes it rather inconvenient for people to get around to transact business, still it is the best thing that ever happened to the country. Rain makes crops and crops bring in the money which turns the wheels of commerce. It may be dull now while the rains are here, but when the sun shines again the pulsations of trade will be renewed with a greater season of prosperity during the coming year than for many years past.

## Twelve Years Ago Today

H. E. Wyatt, living in the city of Richmond tract, lost twelve fine chickens last night through the agency of some enterprising sneak thieves. They entered the chicken house and deliberately bore the fowls away without so much as leaving a clue as to their identity. The Grand Jury was in session again yesterday.

Miss Lucetta Wood, the postmistress, is suffering from an attack of pleurisy. She has gone to the ranch for a few days to get a much needed rest.

Misses Boorman and Lonna Abbott are looking after the affairs of the office during her absence.

A man named George Pollock was killed by a train near Crockett. The remains were taken by Coroner Curry to Martinez to be prepared for shipment to San Francisco where his family resides.

H. B. Kinney and Charles Conannon were in the city today looking after interests connected with the Richmond Electric Light company.

The statement that oil was struck

yesterday morning in the well sunk by the Santa Fe near San Pablo is a fabrication pure and simple. It is true that the Santa Fe well has shown "good indications." The Santa Fe railroad hopes to secure oil near the terminals of Point Richmond in order to obviate the necessity of bringing in fuel from Kern county on cars.

Rev. Father M. P. Scanlon, pastor of the Catholic church at Point Richmond informs us that during the coming week ground will be broken for a handsome church edifice on the lots of that denomination at the corner of Richmond and Santa Fe avenues.

Owing to the illness of several members of the Methodist choir there will be no song service at that place of worship Sunday.

Clifford Easton is now the electrician for the Santa Fe in place of Charles Conannon who resigned some time since.

Miss Elizabeth Carpenter left for Vacaville last evening. She will return on Christmas to witness the marriage of one of her friends and colleagues on that day.

## NATIONS ARE DRUNK WITH FALSE DOCTRINES

The Bible's Portrayal of the Present Time.

Mixed Wines Most Intoxicating—Golden Wine Cup of the Bible—The Mad-Denying Draft—Some Crazy One Way, Some Another—America Not Exempt. She is Feverishly Mad Also.

PASTOR RUSSELL

Chicago, Ill., Dec. 13. Pastor Russell delivered an address today at the Chicago City Temple, taking the text, "The inhabitants of the earth have been made drunk with the wine of her fornication."—Revelation 17:2.

The speaker adverted to his address of last Sunday, in which he had pointed out some of the false doctrines which led to the exaltation of the Scarlet Woman, the unfaithful Spouse of Christ. She had not followed her Redeemer in self-sacrifice and humility. She had especially separated herself from the people under the clergy title, had fought down the true followers of Jesus, causing them to suffer for righteousness' sake, even as the Jews had crucified Jesus, and as the Apostles had suffered for loyalty to Truth.

Intoxicated by successes, she went to great lengths of boasting, establishing herself as Queen of Heaven, ruling over the kings of earth; but nevertheless having fellowship with them and drawing support from them. Both kings and people were made drunk with the thought that they could have so close dealings with the Divine Kingdom and still live after the flesh. Degradation ensued, while kings and people went into a sleep from which they are not yet fully aroused.

The Sixteenth Century brought a partial awakening, but the adversary was at hand to re-entangle those mentally confused by the adulterated wine—the mixture of Heavenly Truth with earthly selfishness and devilry. To have allowed the full light of Truth to shine in upon the world at that time would have meant the permission of the great Time of Trouble nearly three centuries too soon; for the Lord's Kingdom would not be ready for establishment until the full end of the 6,000 years of the reign of Sin and Death.

Therefore God permitted the Protestant Churches to be born, and to develop under the influence of their Mother's intoxicating Cup. So we are not surprised at the prophetic declaration that the Daughters had become Harlots like her—affiliating with the kingdoms of this world, modifying doctrines so as to meet their approval, etc. Each Daughter has done her share to perpetuate the intoxication of the world.

"Babylon is Fallen, is Fallen." The name Babylon contains a double thought—first, the Gate of God; second, confusion. Thus it imports that the Church, Gateway to God and righteousness, became confused, impure, adulterous. As God had prophesied this Babylon system, He evidently purposed to permit it to have the control it has had. Throughout the past some of His saintly ones have been in Babylon. Otherwise He would not say, "Come out of her, My people."

His voice calling His people out of Babylon at the time she is rejected for destruction is the voice of the Truth. As knowledge respecting the Divine character and plan, as revealed in the Bible, comes to God's consecrated people, the voice of the Truth, appealing to the honesty of the individual, calls him to come out at any cost and stand separate from all earthly institutions. The Divine Message declares that the literal fall of these great systems is at hand, and that everybody in them will suffer in proportion to enlightenment.

The Morning Hour, the Drunken Awake. According to Bible chronology, the six thousand years of the reign of Sin and Death have ended. We are in the dawning of the New Dispensation, and the New Order is being gradually introduced. Properly, the awakening came first to God's consecrated, who long have prayed, "The Kingdom come!"

Meantime the Millennial blessings beginning to come to the world have made the drunken sleepers restless. As they awaken, they are seized with feverish acquisitiveness as individuals and as nations. As the individuals have racked their brains respecting money-getting, so the nations have been plotting and scheming for extension of territory, trade, etc. Education has awakened the whole world.

While the awakened ones reject the major part of the creeds of the past, they carefully cling to any rights or privileges which those false doctrines gave them. Thus the Divine right of kings and nobles, princes and governments, and rites and ceremonies, civil and ecclesiastical, are clutched in the interest of the rulers. This is the secret of the willingness of earthly kings, financial princes and subservient religionists to engage in the present horrible war. The argument with all is that the end justifies the means. The Lord no longer restrains these; for His time has come that iniquity should have an end; that the Harlot Systems should make manifest that none of them is the Bride of Christ; and that the kings of the earth might humble each other and thus make ready for the true Kingdom of God.

## DEATH OF MOTHER FATAL NEWS TO DAUGHTER

Receiving a telegram a short time ago announcing the death of her mother, Mrs. W. Roessing of Butler, Pa., Mrs. Henry T. Hulst of 420 Thirteenth street Saturday received a second message conveying the sad news that her sister, Mrs. C. Griffey had died suddenly on the same day that her mother was buried. Mrs. Griffey lived in Denver, Colorado, and had been in poor health for some time preceding the death of her mother and it is believed that the news of the latter's death was more of a shock than her weakened condition could withstand. She had accompanied other members of the family to Pennsylvania and while the relatives were attending the funeral of her mother, Mrs. Griffey passed away unexpectedly.

## GOOD ROADS CONGRESS TODAY

CHICAGO, Dec. 14. — Mayors, highway officials, engineers and road experts from all over the United States and from sections of Canada are gathered in Chicago for the Fifth American Good Roads Congress.

A programme of speech-making on all phases of road building has been arranged, and to illustrate the modern methods, a special boulevard 20 feet wide, composed of all known varieties of street-paving, has been constructed around the amphitheatre at the Union Stock yards, where the convention will hold forth.

Important among the problems under consideration is the question of national participation in road building, for half a dozen factions will try to secure the adoption of different programmes for federal aid in one form or another. Of these perhaps the most important is a plan by which a system of national roads may be constructed, most of the work to be done during periods of industrial depression. It is maintained that the country would materially benefit by the construction of roadways at times when the work is most needed by workmen and when materials can be purchased at a minimum cost.

A contest is expected between the advocates of national highways, such as the Lincoln Highway, and those who favor national aid for local state roads. A strong demand for national aid is heard in some states, but in other quarters it is contended that a national aid bill would become another "pork barrel," like the river and harbor appropriations. An effort will be made to have the congress recommend, perhaps, to build the highways under a government engineer in much the way that the Panama Canal has been constructed.

Although the roads congress was scheduled to meet today, the visitors will not get down to business until tomorrow, when the "school for mayors" opens at the amphitheatre. Twenty-five hundred mayors of American cities have been invited, and a large number are already on hand. Accompanying them are highway engineers and state officials from many states. Automobiles are here in large numbers, and it is expected that fully 10,000 interested representatives of the good roads movement will be on hand for the discussions.

"When you tell a man," said E. L. Powers, secretary of the association, "that it costs every man, woman and child in the United States \$12 a year as his share in the high cost of bad roads, you begin to interest him. The time has come when we should no longer endure a condition of road by which it costs the American farmer 23 cents to haul the same weight that a French or English or Belgian farmer can haul for 7 or 9 cents. It is time we resented a condition in which it is possible to send wheat from New York to Liverpool for half what it costs to haul it nine miles along one of our country roads.

"The establishment of a system of permanent, improved highways is of far greater importance than the digging of the Panama Canal. The roads are used not by the few, but by everyone. They are owned by the people, paid for by the people."

Among the speakers at the convention are some of the nation's leaders in the good roads movement. W. A. McLean, chief engineer of

highways and commissioner of Ontario public roads, is president of the association, and he will deliver his annual address. Other speakers are: Geo. W. Tilson, of Brooklyn; Austin B. Fletcher, state engineer of California; Paul D. Sargent, engineer of Maine; William H. Connel, highway chief of Philadelphia; C. A. Kenyon, president Indiana Good Roads Association; Logan W. Page, director U. S. office of public roads; S. D. Foster, chief engineer of Pennsylvania; S. E. Bradt, secretary Illinois Highway Commission; Henry W. Bowlby, Oregon highway engineer; Frank W. Buffum, Missouri highway engineer; George W. Cooley, Minnesota state engineer; E. P. Goodrich, New York consulting engineer; Walter G. Leininger, superintendent of streets of Chicago; Thos. H. MacDonald, Iowa state engineer, and F. J. Robinson, of Saskatchewan highway commission.

## TRACTION CO. ADMONISHES EMPLOYEES TO BE CONSIDERATE

A circular letter has been issued by George H. Harris, general superintendent of the Oakland Terminal Railways urging the employees of the company to be courteous to patrons of the road during the holiday season and the following communication has been addressed to the motormen, conductors and collectors:

"The Holiday season is near. The shopping crowds will grow larger each day. This means greater demands upon street cars and trains in carrying shoppers to and from the business districts. It also means an extra demand upon the patience and watchfulness of Motormen, Conductors and Collectors.

"The Christmas rush may be made either the cause of worry, or of fresh interest in your duties; whichever view you take concerns you more than it does others, for a man who does not enter into his work in a proper spirit is as much of an annoyance to himself as to those who deal with him; while the man who is cheerful about his work and with those with whom he comes in contact gets satisfaction out of it and earns the good will and respect of the passengers.

"Around Christmas, people are apt to be more absorbed in other affairs and thoughtless about boarding and leaving, or going around cars, and if you watch out for thoughtless shoppers, laden with bundles, thus hampered in getting on and off your car, and help them whenever you can by trying to provide places for them and keeping them from crowding the platform:—at the same time treating them with courtesy—you will do much to add to the spirit of the season.

"It is not altogether an easy task to help people who may be tired or cross; but by putting forth every effort to do so, the holiday rush will be made less difficult to handle, and less unpleasant to you.

"The streets will be crowded with pedestrians, automobiles and other vehicles, thus making the liability

of accidents much greater than under ordinary traffic conditions. Vigorous ringing of the gong may prevent some heedless person from stepping on the track directly in front of an approaching car, or a speeding automobile from driving out of a narrow street across the tracks.

"A word of warning from the conductors may prevent some one from boarding or alighting from a moving car. These things may seem trivial, but you must realize that many persons forget for the moment the dangers incident to such conditions, and a word of warning will save them from needless injury.

"Let each of you, therefore, put forth your best efforts during the Holiday Season so that your work will reflect credit upon yourselves, and upon the company which you represent, thereby gaining a reputation for efficiency and courteous service.

"GEO. H. HARRIS,  
"General Superintendent."

## MEAT CAUSE OF KIDNEY TROUBLE

Take a glass of Salts if your Back hurts or Bladder bothers—Meat forms uric acid.

If you must have meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaker, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink. Adv.

## SPIRIT CHILD CASE BEGINS

CINCINNATI, O., Dec. 14.—Today is set for the court hearing in the famous "spirit child" case which has excited much interest in Ohio. The court will endeavor to settle the question as to who is the mother of Lew Kraft, Jr., recognized as the son of the late Lew Kraft, politician and financier of Cincinnati. Mrs. Flora Haus-Gulen charges that the boy was born to her and not Mrs. Plymouth Weeks, a medium, who is known as the "spirit mother" since the unique contention was brought.

There is still another son involved in the charges brought by Mrs. Guilen, but the court has ruled that all reference to him will be eliminated in the present hearing, and the will of the late Lew Kraft will also be barred from the trial which is to determine motherhood of the elder boy.

It has been established that Law Kraft, worldly and wise, shrewd and firm in the business world, was a devotee of the occult and believed in spirits. Mrs. Weeks, with whom he studied, claims to have been the natural mother of the two sons, who

have been in her custody and who are provided for under the will of Kraft. Mrs. Guilen, wife of a farmer near Washington Courthouse, O., charges that Lew Kraft Jr., is her son, adopted by the medium to deceive Lew Kraft by presenting the boy as their son.

Mrs. Lew Kraft, widow of the late politician, acknowledges that her husband recognizes the sons as his, and that he considered them "spirit" children. The hearing which begins today will therefore show a sordid plot or a remarkable story of the supernatural.

## LADIES! DARKEN YOUR GRAY HAIR

Look years younger! Use Grandmother's recipe of Sage Tea and Sulphur and nobody will know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is tedious and out-of-date. Nowadays, by making at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry feverish, itchy scalp and falling hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application of two, it becomes beautifully dark, glossy, soft and abundant. Adv.

## Women of the Week

ALBANY, N. Y., Dec. 14.—Hearing will begin today of the arguments of appeal of Bridget C. Pletotti, the mother school teacher of New York, from the action of the Board of Education discharging her because of absence without permission, which she took to bear her child. Dr. John H. Finley, commissioner of education for the state of New York, will hear the arguments. There are four other similar appeals before the commissioner, and two more in which the appeal papers are yet to be received.

RALEIGH, N. C., Dec. 14.—Miss Bessie H. Hackney has been re-elected secretary of the Chamber of Commerce of this city.

CHICAGO, Dec. 14.—Mrs. Potter Palmer, famous society woman, has contributed \$1,000 toward a fund to aid unemployed girls in Chicago.

Mrs. Carter H. Harrison, wife of the mayor, is to put her novels into moving pictures. She has written several fairy stories and two novels.

A second "first proof" jury will be drawn today for the second trial of Louis Weigle, a wealthy stockbroker, on a charge of flirting with Miss Mary McKinney. The jury disagreed at the first trial. Chicago clubwomen induced the pushing of the case, to warn other annoyers.

Miss Alice P. Norton, county dietitian of Cook county, took courses in several colleges to prepare herself for her chosen field—that of household administration and dietetics.

ST. LOUIS, Mo., Dec. 14.—Ten homeless and friendless women, from 67 to 94 years of age, who had paid sums of \$200 to \$400 to obtain a home for the rest of their lives, have learned that "The Sunshine Home for the Aged" is bankrupt. Many of them are facing the poor house.

Mrs. Amy Winship of Baraboo, Wis., 83 years old, has quit college. She believes she can learn faster by traveling and visiting the schools. She has been at college for the past three years, and is probably the oldest student in the world.

WASHINGTON, D. C., Dec. 14.—The Woman's Single Tax Club will hold its first open meeting tonight. Mrs. Jesse L. Lane, the president, has mapped out propaganda work for the coming winter. Tonight's meeting is at the public library, and expert tax students will speak.

BOSTON, Dec. 14.—This year there are ten women registered at the Mass. Institute of Technology, which is noted for its difficult courses.

Buying a wedding dress by mail brought grief to Miss Mary Wagala of Webster, Mass. Because Uncle Sam failed to deliver the wedding dress on time, the nuptials were postponed.

CINCINNATI, Dec. 14.—Friends of the Countess de Chambrun have received letters telling of her activities in the European war zone. The countess was formerly Miss Clara Longworth, youngest daughter of Congressman Nicholas Long-

worth. She was at St. Mihiel with the Count when the war broke out. He was ordered to an outpost, and his daring American wife rode out on horseback each day to see him. When he was ordered to the front, she returned to Paris, where she is now staying with her children and her mother, Mrs. Nicholas Longworth. She has on one or two occasions been able to take advantage of some military automobile to get a quick trip to the front and get a short glimpse of her husband. The Count and his battery have been in the thick of the battle around St. Mihiel.

## FAIL TO LOCATE RELATIVES OF DONALDSON

Despite the persistent efforts of the coroner and police to locate the relatives of Robert O. Donaldson, who dropped dead at his post of duty at the Oleum oil works last week, there has been no response from the southern part of the state where it was believed that he had relatives.

On account of no word coming from the south, the remains will be cremated.

## LOSS OF LAUNCH DELAYS WORK OF BIG DREDGER

Operations on Martinez-Bay Pt.  
Road Will Begin on the  
20th of December

MARTINEZ, Dec. 14.—The sinking of the launch "Venice" owned by Will Parry and Frank LaMontagne of Antioch who were on their way to tow the big dredger Woodward Island to Bay Point where it will be used in the throwing up of the embankment for the Martinez-Bay Point road delayed the arrival of the dredger at the scene of operations, but the starting of the road work will not be held back.

The launch sank in about 30 feet of water but the two occupants were saved. The big clam shell dredger is to be brought to Bay Point in a few days and work will be started on the new road by December 20th.

## PRECIPITATOR OF SMOKE GIVEN TEST

Yesterday afternoon at 3 o'clock a very successful demonstration of Captain C. W. Lent's smoke precipitator was given at Park place between Richmond and Washington avenues. There was a good attendance of interested spectators, among whom were Chief Engineer Hoffman of the Porroers Specialty Co. of New York, which company has the contract for the construction of a garbage incinerator for the city of San Francisco. General Manager Turner of the same company was also in attendance, as was Chief Engineer Flint of the Palace Hotel Company, and numerous other interested parties from neighboring cities.

The smoke precipitator, as on all former demonstrations given in this city did all that the inventor claimed for it, and Captain Lent left for San Francisco this morning to make an estimate upon the cost of installing one of the precipitators on the San Francisco incinerator.

Oregon abolished capital punishment by 157 votes. Won by a neck sure enough.—Oakland Enquirer.
